<b>Office Action Summary</b>	<b>Application No.</b> 10/587,331	<b>Applicant(s)</b> KUSAFUKA ET AL.	
	<b>Examiner</b> PEDRO J. CUEVAS	<b>Art Unit</b> 2834	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, 7-11 and 13, drawn to a voltage generator device, a control method for a voltage generator device and a computer-readable media.

Group II, claim(s) 6, 12 and 13, drawn to a motor vehicle, a control method for a motor vehicle and a computer-readable media.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons.

The special technical feature of invention I is found in claim 3 and it is:

the control portion is adapted to reduce a target value of voltage output by the voltage generating portion if a value of current through the voltage generating portion increases provided that the operating condition is within the first region.

The problem solved by the first invention is: avoiding overheating of the voltage generating portion.

The special technical feature(s) of invention II are:

a motor vehicle;

an electricity storing means;

a voltage generator device that compensates for a fall of an output voltage of the electricity storage means; and

an automatic engine stop control means that automatically controls stopping and starting of an engine, and prohibits an automatic stop of the engine if it is detected that the operating condition of the voltage generator device is within the first region.

The problem solved by the second invention is reducing fuel consumption of an engine of a motor vehicle without impairing correct operation of electric loads of the vehicle.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 2834

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
